

THUNDERCON 2018

INTERACTIVE ACTIVITIES AND THEMED AREAS

The ThunderCon **Main Stage** is a centrally located feature attraction. Each of our celebrity guests appears on the main stage throughout the event, focusing lots of attention on it. It hosts the Opening and Closing Ceremonies, live performances and demonstrations, and more. The Main Stage is active the majority of the event's timetable.

Every attendee looks forward to the **Diagon Alley Vendor Showcase** and spends time walking the aisles of the 8,000sqft area. With activities, artist commissions, and retail/unique goods for sale there is something for everyone.

We have developed our **After Dark** programming into a VIP experience that includes a catered evening of mingling with celebrities. In 2017 we had an astrological presentation by our headlining celebrity and we look forward to providing another exceptionally unique experience for 2018.

2017 hosted the first **Kid Zone** and what a hit it was! With a variety of fun interactive activities every family spent time here playing and creating.

Each year the **Club Zone** features local clubs, artists, collectors, and social groups with amazing displays and opportunities within our community.

These sponsorships offer great value connecting your brand to an on-site experience.
